## Customer Reviews

From the very talented hands of Autumn Carpenter, comes this wonderful and detailed volume of cake decorating, born of her love of cake decorating and teaching. Her store, Country Kitchen Sweet Art, located in Fort Wayne, Indiana has all things related to cake decorating. And because of that love, plus the myriad of questions she has answered over the years and help she has given so many people in this field, especially those first starting out, she has compiled this manual. It is written on thick, solid paper with bright colors and clear photography, mostly step-by-step tutorials. It is a heavy book that measures approximately 8"x11" in size so its large and with easy print. It is divided

into 4 sections and is color-coded on the page headings. This would be an excellent book for any beginner, and for those with a need for a good reference book. The photographs are in color, and in ordered numbered. I would venture to say that just the sequential photography alone could suffice for someone for whom English isn't a primary language. Projects are also included at the end of each chapter. All aspects of cake and cupcake decorating have been covered so that if you see something that you would like, you should be able to do the same, perhaps with a wee bit of planning. Also, many of the tools that are used are easily accessible from craft and hobby stores, and when needed, there are plenty of US companies that can be contacted for the rest. The four section are: SECTION ONE: Basic Cake Preparation Every tool and cake decorating toy needed for all the projects in this book, and then some, are listed and shown along with an explanation of each.
