This is the first smoothie recipe book Iâ™ve bought for my Kindle and probably the most comprehensive book Iâ™ve read on the subject. In fact, itâ™s unfair to label it as just a recipe

book as the author also offers advice on the best way to use smoothies, whether as part of a weight-loss plan, detox, or simply an addition to your usual diet. I love how the book is split into chapters based on the benefits. It makes it really quick and easy to select the one I want, whatever the occasion. I'm currently focused on the Healthy Brain smoothies because I'm finding my memory and concentration need all the help they can get as I grow older!

I found so much to like in this smoothie recipe book. I like that they are geared towards weight loss and can all be easily made. The flavors are great and I'm really enjoying the ones I tried so far. Highly recommended.

Enjoying my smoothies with my Nutra Ninja Auto IQ!!

It is easy to kick the sugar habit if you have something to replace it with. Easy with just a few ingredients, or new fruit and vegetable combinations – they are all in this book!

has some good veggie smoothie recipes in it, which that's what I mainly wanted it for

A lot of good healthy smoothies. I just got my machine so a lot of good ones to try
