## Customer Reviews

I've never eaten at El Bulli, and I know Chef Adria only via some guest appearances on TV. I can't say enough good things about this cookbook. It will work for novices and experts alike. There are tons of tips, and many of the sauces have freezing instructions as well. Pretty much every step has

a full-color photo, so it's hard to make a mistake. There are no strange ingredients either. My only complaint (if I can say that) is nearly every meal contains a fish course--and I'm not a fan of fish. My husband is, however, so thinks it's the best cookbook I own. :)When I bought it, did not have any way to preview it. So, I'll try and tell you what's in it.First, there are the basic recipes. Each one of these has step by step close-up pictures.Picada, Tomato sauce, Sofrito, Bolognese sauce, Romesco sauce, Pesto sauce, Barbecue sauce, Teriyaki sauce, Chimichurri sauce, Croutons, and Aiolo. Most have two different quantities you can make depending on your needs.Stocks: One nice tip he gives is that they reboil the stuff they made a stock with, calling it second stock....and then use that as the water the next time they make stock.Fish stock, chicken stock, beef stock, and ham stock.Now the meals. There are 31. Each one contains ingredients for 2, 6, 20, and 75 people. Each one contains step by step pictures and a timeline.
