# Homebrewer's Companion Second Edition: The Complete Joy Of Homebrewing, Master's Edition

## Synopsis

Newly revised and updated, the master-level companion to the world's bestselling beer making book, *The Complete Joy of Homebrewing*. In this inviting, easy-to-follow, hands-on guide, Charlie Papazian, the godfather of homebrewing, takes readers beyond the basics of homebrewing. This second edition of the classic volume includes detailed charts and tables, the latest techniques and equipment information, new recipes, and more, including:

- Added details on the art and science of brewing beer
- Up-to-date malt and fermentation charts
- Websites and resources
- Everything you need to know about hops and how to use them
- Expanded information on yeast and microbiological enhancements that can make your beer even better
- A list of beer styles with references
- 55 beer recipes and 10 mead recipes plus dozens of new recipes
- How to make gluten-free beer
- An expanded glossary of beer characters and a beer evaluation section
- Expert insight and recommendations on beer and food pairings and cooking with beer

Average Customer Review: 4.9 out of 5 stars See all reviews (18 customer reviews)

Best Sellers Rank: #55,609 in Books (See Top 100 in Books) #51 in Books > Cookbooks, Food & Wine > Beverages & Wine > Beer #69 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Reference #86 in Books > Cookbooks, Food & Wine > Beverages & Wine > Homebrewing, Distilling & Wine Making

## Customer Reviews

I loved the Joy of Homebrewing. In this book I sought more advanced knowledge for all-grain brewing - specifically for water chemistry and recipe development. For example, I have water that is on the harder side, and was looking for some practical information regarding how to lower the pH -- like descriptions of different acids to use, considerations in doing so, mash stabilizers, etc. My brewstore guys are good, but I really wanted an objective reference book. It just doesn't deliver -- it

covers these topics with disappointing brevity and makes a fair amount of reference and repetition with The Joy of Homebrewing. Its not a bad book by any means and I did enjoy reading some of the history it has very well covered and will try some of the recipes, but if you are looking for advanced technical knowledge -- this just doesn't provide practical information.

Great for brewing. I love the recipes and tips.

Good book with lots of information! If you're new to home brewing or looking to expand your knowledge, this should help.

This is a good book! I learn something new every time I read it. The art of brewing has made easy to understand.

Well written, clear and concise and has moments of humour. Great help to move beyond an entry level home brewer.

I like this book for the recipes. Also Charlie Papazian is a very entertaining and informative writer.

Bought this for my 30 year old, newby brewer. He thought it was excellent reading material.

Book offers lots of helpful information for the home Brewer! Book arrived quickly.
