The Ultimate Cigar Book: 4th Edition

Synopsis

First published in 1993, *The Ultimate Cigar Book* has become a classic in its field, and is generally credited with having helped launch the current cigar smoking craze. It has been reprinted numerous times in the United States, and is now sold worldwide. No other book contains as much detailed and factual information on virtually every facet of cigar making and cigar smoking. And now this trendsetting book has been revised in this fourth edition for the aficionado of the future! Forget 1492. This book starts out in B. C. (Before Columbus) and transports the cigar enthusiast on a fun and fact-filled adventure into virtually every realm of today's popular and growing cigar smoking pastime. Written by one of the most knowledgeable and internationally-celebrated pipe and cigar authors of our time, Richard Carleton Hacker's well-known wit and wisdom will keep the reader enthralled with every turn of the page, as he takes you on an information-packed tour of cigars. Starting off with a history of cigar smoking, the author then shows us how cigars are made today (handmade, handrolled, and machine made), divulges the secrets of finding the "perfect" cigar, and discusses the ritual of smoking and how to properly care for and store our cigars. From there the book lists a number of innovative cigar accessories, suggests which beers, wines, whiskeys, brandies, and cognacs go with what cigars, enlightens us with a chapter on cigar smoking celebrities, and concludes with the world's first International Compendium of virtually every cigar brand known today, complete with histories and observations on taste, according to the author's HPH (Highly Prejudiced Hacker-Scale) ratings. If that was not enough, there is even a dictionary of CigarSpeak! *The Ultimate Cigar Book* is the most comprehensive, factual, and up-to-date book for the cigar smoker or for those who just want to learn more about the fascinating and popular world of cigar smoking.

Great weekend read. Filled with interesting facts and anecdotes. Not exactly a "coffee table" boo, as it measures just ~5 inches across. It is a substantial, solid book, jam-packed with cigar info. So packed with information is this book that it doesn't even get around to the 'how to light a cigar' section until page 173. Must have for cigar lovers. Cover price is \$24.99, nice to see it at for less.

A fantastic book that thoroughly covers everything you ever wanted to know about cigars and their history. Great imagery scattered throughout including a ton of fascinating old b&w photos. That said, it's not meant to be a coffee table book. However, packed with amazing information on all things cigar, this book will help give you a new appreciation for your collection of sticks. So grab a drink and your favorite stogie and take a journey through the rich and historical world of smoking.

Great book, for novice and aficionado alike! Hacker writes with great knowledge and references, and in an engaging and captivating way. He even employs humor into this fantastic, all encompassing book on cigars.

I ordered this book for my son-in-law, who loves a good cigar with his father-in-law (my husband) for a Valentine's present. It was priced perfectly for the amount I spend on Valentine's day and was a great resource for him. He loves it! It's a quick reference guide for him.

Most awesome book on cigars and the industry I have ever read!

Everything you need to know about cigars. Learning about the history of cigars was fascinating and entertaining. One of the tidbits was the history of the cigar band and why they were created. Must read book for the cigar aficionado.

Most comprehensive book on cigars I've read yet. Very well written.

Beautiful and comprehensive book. I like it!
