Customer Reviews

This book is advertised as good for food allergic dogs. The top allergen for dogs is wheat. The main ingredient in most of the recipes is whole wheat flour. Unfortunately, not helpful to someone with a food allergic dog.

This is a great little book that has a lot of other little tidbits about things that go into your pets treats. With all the issues we are having with dog treats from China killing dogs and making people sick from handling them I decided to make my own healthy treats!

Our 7.5-month-old pup had huge "stomach issues." We bought every food known to man (major pet food brands to raw and everything in between) and nothing relieved his diarrhea until we began

making his food with no dyes or preservatives or fillers. Finding a treat he could stomach [pun intended] was also problematic. Now, it is not and he is as happy as we are!

I like this book- it's not very big or fancy, but it has some great recipes that my dog loves. They are easy to follow and to make, and apparently tasty.

I love the recipes for treats. I wanted to feed my best four footed friend a more wholesome, nutritious option for meals and treats. This book offered excellent recipes.

I know exactly what I'm giving my dogs with these recipes. Great easy to prepare and my girls love all the treats.

We occasionally like to make homemade treats for our dog. However, the recipes in this book were hard to make and the few we tried didn't turn out very well. Our dog did not eat the treats that we made, either, and he has loved treats that we have made from other sources. Luckily, this book was inexpensive since we won't be trying any more of these recipes.
