# Collector's Encyclopedia Of Depression Glass

## Synopsis

Since the first edition of Collector's Encyclopedia of Depression Glass was released in 1972, it has been America's #1 bestselling glass book. Gene and Cathy Florence now present this completely revised eighteenth edition with 156 patterns and more than 400 beautiful color photographs. With the assistance of several nationally known dealers, this book illustrates, as well as realistically prices, items in demand. Dealing primarily with the glass made from the 1920s through the end of the 1930s, this beautiful reference book contains stunning color photographs, vintage catalog pages, updated values, and a special section on reissues and fakes, discussing 13 different reproduction patterns. Once again all the pieces in all the photographs are identified and cross-referenced with their listings. This dependable information comes from years of research, experience, fellow dealers and collectors, and millions of miles traveled by full-time glass dealers Gene and Cathy Florence, America's leading glassware authorities. 2008 values.

## Book Information

Series: Collector's Encyclopedia of Depression Glass

Hardcover: 256 pages

Publisher: Collector Books; 18 Revised edition (July 15, 2007)

Language: English

ISBN-10: 1574325590

ISBN-13: 978-1574325591

Product Dimensions: 8.5 x 0.5 x 11 inches

Shipping Weight: 2 pounds

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (37 customer reviews)

Best Sellers Rank: #395,838 in Books (See Top 100 in Books) #68 in [Books > Crafts, Hobbies & Home > Antiques & Collectibles > Houseware & Dining > Glass & Glassware](#) #270 in [Books > Crafts, Hobbies & Home > Antiques & Collectibles > Antiques Care & Reference > Reference](#) #343 in [Books > Reference > Encyclopedias & Subject Guides > Art](#)

## Customer Reviews

Updated for 19th Edition (last one, they retired): Well, the 19th edition is almost identical to the 18th edition with the exception of prices. That is not a bad thing. (I created a real index for 18th ed, so when I updated it the 19th edition I saw only a few pages were modified). They have FINALLY gotten realistic with pricing, the common pieces dropped by 50% and the rarer pieces dropped by 25% or so. I know dealers and hoarders don't like it, but sky-high prices stopped casual collectors

dead in their tracks. With shipping, eBay prices come out about right for MINT pieces. Prices at retail don't regularly sell above this book price (you'll see plenty marked higher, but they've been sitting on the shelf for years.) This is the best book out there for dealers of depression glass, but the authors/publisher once again forgot a usable index or table of contents. To make matters worse, some patterns are still alphabetized as No. ###. No index of alternate names (some patterns have 3 or 4 commonly used names). The table of contents is the same as the alphabetical listing by page, totally useless. The official company name is the pattern name it is ordered under, regardless of the popularity of other names. Pictures are great. Verbiage for patterns normally indicates the marketability of the pattern, but wish there was a prominent "popularity score" above each color the pattern comes in. Some colors in some patterns have absolutely no buyers, at any price above a buck or two, which is an extremely valuable piece of information. Would recommend using --,-,+,++.
