This book is more than a cookbook. I could call it the bible on Wild Game preparation. Admittedly, not all forms of game common in North America is included. But the book does include the common forms of wild game, big game, and more importantly, how to clean/dress the meat. The cleaning/dressing of the meat is included in the back of the book. There are well detailed colour photographs to assist the novice with the steps. Once one has an idea on how to dress game or clean fish, the idea of hunting or fishing becomes more exciting. By properly preparing the meat from the get-go, one has greatly improved the possibility of a truly extraordinary meal preparation. For those who have not had the privilege of a father or a loved one who could show one "the ropes" on dressing game or cleaning fish, this book is indispensable. For those who have had the privilege, this book is a great refresher course. This book makes a great gift either way. The book also includes techniques on how to clean Northern Pike and remove the "Y" bones. These bones are most troubling. Instructions are included for other fresh water fish including bullheads and catfish. The recipes are first class and include delectable photographs. I have not tried all of the

recipes, but just reading what one can do with fish and wild game makes one salivate. Our grandparents and great grandparents may have eaten this way, but much of this experience has been lost through the generations. One cannot obtain most of these meats at the local grocery store, for instance. After obtaining one's Fish and/or Wild Game, one can have in mind the terrific recipe that he/she will try. This book is a book of fine cuisine, and is by no means "The Road Kill Grill".
