# Antiques At Home: Cherchez's Book Of Collecting And Decorating With Antiques

## Synopsis

For years, collecting antiques has been Barbara Ohrbach's favorite pastime. Cherchez, the elegant home furnishings shop she owned in New York City, reflected her exquisite taste and impeccable eye. In this very personal book, she gives practical advice about collecting and living with antique objects. As she says, all of these treasures from the past are what "give a room its personality and style and a house its soul."Antiques at Home is filled with more than 300 photographs of beautiful old objects and rooms, and provides a wonderful look at the world of collecting -- from flea markets to elegant stores. Ms. Ohrbach discusses many types of antiques, including ceramics, silver, and textiles. In each chapter, she interviews some of the most respected people in the antiques business and includes tips for what to look for when buying antiques and ideas on how to decorate with them. Each chapter ends with a special section on how to care for and preserve these objects. Ms. Ohrbach shares her enthusiasm in searching for antiques and tells us where to find them in an international source guide that reveals her favorite antiques shops, fairs, markets, unusual museums, and historic homes. Decorative arts societies, reference books, decorating periodicals, and restorers are also listed. Beautiful objects that were used and loved in everyday life in the past have become very special to us today. For everyone who has already discovered the warmth that old things bring to our homes, as well as for newcomers to collecting, this book will be a treasured guide.

## Customer Reviews

"It is the loveliness of little things that imparts life to a room." This quote sums up the feeling of this wonderful book. It is filled with hints and tips on finding and caring for antiques and collectible. The joy of combing through flea markets looking for the next perfect addition to your collection is reflected in both text and pictures. The chapters cover ceramics, wood, silver, textiles, glass and paper. What ever makes your heart sing is covered in this book. A nice plus is an index listing of flea market and shop locations in both the United States and Europe. This is a book I go back to and read and look through time and time again, a keeper for your personal library.

For anyone looking for a beautiful and useful book about antiques, this is it. Barbara Milo Ohrbach has a wonderful way with words and her enthusiasm about the world of antiques is charming. I've owned this book for a number of years, and often refer to it when I want to know a specific terminology or when I'm checking out the care and treatment of a particular antique object. Because the author's writing style is so enjoyable, I always end up reading pages and pages of the book and learning more with each reading. ANTIQUES AT HOME is divided into eight chapters on the following topics: Ceramics-Wood- Silver- Textiles- Glass- Paper- A Personal View and The Collector's World. The photographs are beautiful and I've borrowed some of Ohrbach's ideas about how to display different collections. Most of us can't collect everything, but the lure of old and beautiful objects is contagious and the author communicates that love in her book. She calls it "a personal view" of antiques.

This is a "must read" for all of us who love antiques. With every page there are new ideas for "old things." The photography is scrumptious and the text reads like poetry. This book envelopes you. I have been reading it for over a year.

This book is by far the best and is my favorite of all books on antiques and decoration! And I have a lot of those books! It's very useful and gives you a lot of options on how to decorate with the antiques that you have on hand, makes you take stock of what you have and cherish them even more and also makes you want to have/buy the antiques beautifully illustrated here! I really recommend this book for every antique buffs!

This is a most wonderful book. I have enjoyed it for years and have given it as a gift to friends. It is beautiful and informative, many interesting ideas. Makes you want to go out and find the lovely

things you see in this book. I highly recommend it. You won't be disappointed

Loved the history lesson in art, found some gems of wisdom that I hadn't found other places, like a good overview of how and why certain pieces were used and how that changed over time. A dated book (1984) when referring to shops and how to find art (the internet has changed how we research hallmarks and shop for pieces), but many of the ideas are still fresh, and basic art and design will always be relevant. I learned a lot and enjoyed the book as a visual treasure. How to care for specific art was very helpful. The author had a lifetime of knowledge to share and she did it well.

This is a "must read" for all of us who love antiques. With every page there are new ideas for "old things." The photography is scrumptious and the text reads like poetry. This book envelopes you. I have been reading it for over a year.

This is my all time favorite book on Antiques, beautiful photography, and REAL information for anyone who wants to learn more about antiques, collect just one type of thing, or just loves beautiful things. It is a great gift if you know someone likes the thrill of the hunt for treasure or just junk.
