I have several of the other Gooseberry Patch books, and this one was a little disappointing compared to the others. The casseroles are fast & easy to prepare, but they seemed to all be so similar. They had few ingredients & basically used cans of cream of mushroom or cream of chicken soup. Lots of taco seasoning, tomato sauce, rotel,...just slight changes to casseroles we have seen for years. I have found a few my family liked & will add to our menu.

When I purchased this cookbook I was looking for a little bit more unique casserole ideas. I have

been itching for some amazing home-cooked heart warming meals. Most of the recipes have ingredients that are store bought and not homemade. I am not impressed at all. These recipes do not come from the heart. The recipes were also very juvenile a kid could do them. Not worth your time and money.

Another GooseBerry Patch book. This book has so many bookmarks in it that it is not funny. I need a page added to keep up with what my bookmarks are for. Every recipe we tried on our last trip (this was the chosen one this time) was just wonderful. They were a little large and I have a small oven in travel trailer so I just halved everything and we still had leftovers, which I froze and brought home so the next week the menus were planned. Can't get any better than that. I love this book, It is worth every penny you pay for it and makes a great gift also. I got the one for the kindle so it really didn't need to be packed, so cool and when I got home I have one of those tacky roosters holding a piece of corn (for you to place a recipe or a cute saying in the slots of the corn) well guess what the kindle fit and was angled perfectly to read and make the recipes... Love it. Buy it you will too. Glenna in Walkertown, NC

All 101 look like they'd be delicious. Many serve 6 or more. A high number use cheese in some form, however. I really like this collection but wish there was a cheese substitute that tastes like cheese to use in them!

Just what I was looking for - money well spent. Very pleased. Each recipe has its own page and tempting photo. A nice variety of recipes is well organized, and easily made from items many of us have right in our pantries. Great for our busy lives with just a few ingredients each. Many look like recipes from our childhood, passed down through families from generation to generation. Can't wait to try all of these!

These is a nice recipe book. The recipes were easy and well written out. I also liked there was a picture for every recipe. My only tiny complaint is that my book came with the corners bent and this book was a gift and with the corners bent it kind of looked used. I wish they would have of put it in a padded envelop instead of just throwing it in a big box with my other stuff I ordered because it bounced, bad packaing but a great book.

I found some very good recipes that are simple and easy to make. The few I've tried were very

good. Too bad so many recipes are made with cheese. I'm not a big fan of cheese and recipes filled with cheese are high in calories and cholesterol.

Excellent cookbook and recipes. I used one of the recipes with pork chops and apple pie filling and stuffing for a Thanksgiving Dinner and had rave reviews by my guests. Thank you Gooseberry Patch, I think I gained 5 pounds eating the wonderful meal. Keep up the good work.
